This map contains data from the following sources:  
ESB, RSK, LUC, NatureScot, SUSTRANS, LDWA, HLC

Coordinate System: British National Grid  
Projection: Transverse Mercator  
Datum: OSGB 1936  
Units: Meter

**Notes:**  
The ZTV is calculated to turbine hub height (118.5 m for T1-T11, T16 and 98.5 m for T12-T15) from a viewing height of 2 m above ground level.  
The terrain model assumes bare ground and is derived from OS Terrain 5 height data (obtained in September 2021).  
Earth curvature and atmospheric refraction have been taken into account. The ZTV was calculated using ArcMap 10.8.1.
